

GO HERE FOR BIG SALE OF GUERNSEYS
500 Is Highest Price in Early Bidding—Banquet Tonight.
The first annual sale of registered Guernsey cattle ever held in Janesville opened at the fair grounds this afternoon under the auspices of the Southern Wisconsin Breeders' association.
More than 300 men and many women packed the tent pavilion erected for the sale when bidding opened at one o'clock. Col. J. R. Cove of Whitesha, assisted by Benjamin and Taves, were the auctioneers.
The highest price paid in the early sale was \$500 bid by George E. Richardson, Garden City, Minn., for "Bob McRoe," consigned by Ralph Pratt. The first pure-bred sold went under the hammer for \$400 to Chris Kelsling, Port Atkinson. Other Guernseys at the beginning of the sale brought \$170, \$220, \$305, \$325, and \$375, and were sold to buyers from Minnesota and Wisconsin.
President is Pleased.
Dr. W. A. Munn, this city, president of the association said, "Early prices being paid for these cattle indicate that they will bring considerably more than the cattle sold at the state sale at Madison yesterday. We have a good crowd and these pure breeds should bring some record prices."
There will be a banquet tonight of the association at the Y. M. C. A. and quite a number of visiting experts of Guernseys are expected to be present.
Tomorrow 60 grade cows will be offered for sale. Two herds, 28 cows, owned by Valton of Footville, and a herd owned by O. E. Gehling of Atton, will be sold.

Back With Greetings of Harding
Senator and Mrs. Warren G. Harding sent a message of greetings to Janesville people by John L. Terry, 1008 Clark street, who visited them at their home in Marion, Ohio, Tuesday morning. Mrs. Terry was returning to Janesville from a five weeks' trip in the east and stopped over to visit relatives in Marion.
The Harding home is a hospitable one and the guests welcomed there, says Mrs. Terry, who had an appointment to call at their home at 9 o'clock Tuesday morning. Mrs. Harding feels it an honor to have friends come to see her. Mrs. Terry says, adding that Senator Harding with whom she has been in contact for some time expressed his disappointment that he could not stay with his guest for long.
The Hardings remembered the cordial welcome accorded to them on their short train call in Janesville a few weeks ago. Mrs. Harding sent back word to Janesville readers that her shoe toes were soiled because of the enormous crowds she had been in and from which she was lucky to escape at all.
The entire lot of household goods of Mac Lean sisters will be sold on Friday and Saturday, Oct. 15 and 16, commencing at 1:00 P. M., from Ward Bros' storage in the rear of Baumann and Hammond's Grocery store, 11-13 S. Jackson St.

BY DAISY DEAN
Here's our own Viola Dana playing in "The Girl Who Lived in the Woods." Miss Dana has just scored a hit in "Head and Shoulders" and here she surely looks as if her shoulders were O. J. favorites about the Metro studios because of her sunny disposition and her penchant for playing pranks. She enters into the life of the studio with all the enthusiasm which she shows in her pictures. She is shown here clad in a picture in Europe before she returns to America.
Mae Marsh is locating at Great Bear for scenes in "The Girl Who Lived in the Woods." John Adolph is directing this Marjorie Benton Cooke story.
Charles Clary, well known "heavy," is wearing a crown these days. He is playing King Arthur in "A Connecticut Yankee in King Arthur's Court."
Mae Marsh and her "Girl Who Lived in the Woods" company are now at Great Bear Lake, Calif., where exteriors are being made for the production.

WOULD PUT END TO FALSE ALARM CRAZE

There's an easy chance to make \$100.

Thoused by the turning in of three false fire alarms during the past several days, Chief Con. J. Murphy is determined to ferret out the practical jokers and have them fined. He calls attention to the standing reward of \$100 offered for the arrest and conviction of anyone turning in a false alarm.

An alarm from box 311, corner Jackson street and Oakland avenue, at 10:45 o'clock last night, was found to be false. Shortly before 7 o'clock last evening firemen were called out to extinguish a rubbish fire at the Fourth ward marsh. The call was from box 47, corner of Park avenue and Calena.

The chief also warns motorists and other vehicle owners to head in toward the curb and stop when fire trucks are passing. They have full right-of-way of the streets at the time of an alarm.

REST ROOM PROVIDED FOR STORE EMPLOYEES

Women employees of Woolworth's store here can now boast the comforts of their own rest room, which was opened Wednesday. The building in the rear of the store, which was formerly occupied by Ward brothers as a store room, has been leased by the Woolworth company and fitted up for the women of the store. Entrance to the girls' apartment is made through the cloak room, which has been refitted to suit. Here each girl has her own coat hanger and hook. Just off of this room is the general rest room, which is attractively arranged with several brown leather chairs, a leather lounge, library table, and crocheting pillows, which match the drapes and dairy white curtains. Brown and yellow is the color scheme which has been used in decorating the room and which has been carried out in detail even to the bouquet which makes the centerpiece for the table. In one corner the girls are to prepare lunch. Over the stove is a cupboard completely furnished with dishes and cooking utensils. Two large windows facing the river give the room plenty of light and electric lights with pretty yellow and white globes have also been installed.

FEW TURN OUT FOR HEALTH MEETING

Only six persons attended the open meeting of the board of health last night in the city hall hold for the purpose of co-operating with the people of Janesville in bettering health conditions.

No closed meetings were brought up to the board. The board began these open meetings for the purpose of obtaining suggestions and criticisms in the work. The Federated Women's clubs were represented by several members. Another meeting will be held in November.

NOTED DANCER BACK FROM "GAY PAREE"

Florence Walton.

When Florence Walton, the famous dancer, returned from Europe recently she was clad in a stunning gown and coat of the latest Paris design. And, why not? For what, pray, does an actress go to Europe unless it is to have an orgy of shopping for new Paris fashions? In the photograph Miss Walton is shown wearing one of her newest Paris made coats and hats. Note the distinctiveness of the decorations. She is wearing her velvet bag which have crossed the ocean sixteen times.

It is said that the length of the day rather than the temperature affects the growth of plants. It is given 18 hours of light every day bloomed 2 months earlier than similar plants which experienced only the day of natural length. This was proved in some government experiments.

COX ATTACKS TAFT'S POSITION ON LEAGUE

[By Associated Press.]
Van Wert, Ohio, Oct. 14.—A new line of attack upon former President Taft's position upon the league of nations was made here today by Gov. Cox in opening a three days' campaign in his home state.

Referring to Judge Taft's statement that even in event of Gov. Cox's election there would remain enough republican senators to defeat the treaty, the democratic presidential candidate declared this indicated a plan to disregard a decision in the "league referendum."

Governor Cox declared that he favored the league of nations with reservations or any others that are offered in good faith to further clarity or reassurance and that do not have the purpose of destruction.

After closing his fourth Indiana visit last night at Fort Wayne, Gov. Cox brought his league of nations and other causes to central Ohio today with engagements at Van Wert, Delphos, Lima, Napoleon, Sidney, Lima, Urbana and Columbus, the state capital. The governor is billed for addresses at Delaware, Marion, the home of Senator Harding, Upper Sandusky, Carey, Fosteria and Bowling Green en route to Detroit. On Saturday he speaks at Sandusky, Elyria and Cleveland.

Edna May's Romance

Edna May is a widow now, and the widow, she says, that she played the Salvation Lassie in "The Belle of New York" appears agitated by the sad news that has come into her life. The pretty paths of her face won her Oscar, Leybold and the beauty which he said to have literally laid at her feet. Yet Miss May kept him waiting years for the answer. The proof of his happiness is to be found in his will, which bequeathed his wife virtually all he possessed. Nor in his life was there ever the suggestion of discord between them. And Edna May was the daughter of a Syracuse mail carrier and the former wife of Fred Titus, the bicycle rider, when she met the fiancé.

Somewhat similar was the affair of Julia Arthur and Benjamin P. Cheney. He was a Massachusetts millionaire when, as a member of the Harvard Equestrian Club, he saw the actress. He did not wish to let her out of his sight thereafter. They married, enjoyed years of bliss together. He had asked that Miss Arthur remain off the stage. She had consented, yet when his fortune became impaired and he was aging, she returned to the stage and won new honors for herself.

Many Romances of Millionaires and Actresses End Happily; Stage Hit

Above: Ethel Barrymore with her children and Edna May. Below: Julia Arthur (left) and Mrs. George J. Gould.

New York.—The recent marriage of Alexander Smith, Cochran, America's richest bachelor, to Miss Wislaka, the Polish prima donna, has raised again the old question: Do romances of millionaires and actresses turn out happily?

While the evidence is conflicting, the social registers of today are sprinkled with what society once called mesalliances, and the parties to these unions are respected members of society's innermost circle. The brides that crossed the footlights in the years in several instances are literally leaders of the most exclusive sets.

August Belmont, Sr., was "America's richest widower" when he saw Eleanor Robson in "Merely Mary Ann." Mrs. Belmont's first wife had died in Paris in 1898. He lived alone with his three children, August, Jr., Raymond and Morgan, until he met Robson in St. Patrick's cathedral in 1910.

There has been an ideal life. They have been exemplars of members of happiness. With tastes alike, they have promoted the breed of horses in stock farm and race track; they have motored, hunted, and indulged their fondness for music and art together.

Corey's wife is ex-stage star William Ellis Corey was divorced by his first wife, while he was president of the steel trust, but he and Mabelle Gilman, of "The Belle of New York," have lived a married life in mutual happiness in the 12 years of their marriage. Miss Gilman promised her husband that she would never return to the stage, and the promise has been kept. Her only dramatic activity has been in the staging of amateur theatricals in a specially built playhouse, which Mr. Corey spent \$500,000 in building for her.

Ethel Barrymore married the very wealthy Russell Gould more than 10 years ago. Unlike most actresses, Miss Barrymore remained on the stage after marriage, only to devote her engagements when maternity necessitated.

It is nearly 30 years since Edith Kingdon achieved her first success on the amateur stage. She had been an amateur player with Robert Hilliard, in Brooklyn. Then she was a sparkling success at Augustus Dore's company. Her marriage to George J. Gould has been idealistic. Her children inherited her beauty and grace, and their marriages have been successful. Now a grandmother—so often that the title has long since lost its novelty—Mrs. Gould retains the charm of other days and retains her social eminence.

The Letters of Tessie and Joe

DEAR TESSIE: Your remarks about the passing of the good old fashion dances touched me in a vital spot, because us two first met on a dance floor, and it was on a dance floor that I asked you if you would be Mrs. Joe Pick and you blushing accepted the nomination. You were treading all over my feet at the time, but it was the sweetest agony I ever put up with. In fact you always used to tread on my feet when we danced together, for you got to admit, Tessie, nobody ever accused you of being one of the world's ten greatest dancers, but it never made me mad, although in those days I used to go in for some pretty flossy patent leather shoes that couldn't stand much weight.

Al well, if I can't work up the same satisfaction now in having you tramp all over my toes, it just goes to prove we're only young once. It might also go to prove that you've got considerable heaver.

That's one thing in favor of this 1920 dancing—the bum dancers can't walk on their partner's feet because the first step seems to consist in plastering your feet to the floor for the duration of the dance so you'll know where they are and can safely take your mind off of them while you devote your attention to your knees and shoulders. The second step seems to consist of wiping all the expression off your face and laying it gently but firmly against your partner's face. After a couple times around the floor no vaders, Tessie, two young people certainly ought to feel as if they'd known each other a long time.

I'm worried about this Italian situation—have you been reading about the factory hands in Italy throwing the owners out the back door and all declaring themselves general managers? Well the part that's worrying me is a certain feeling that every profiteering restaurant and hotel keeper in every square mile of my territory is going to tack an additional charge life fifty cents to every portion of macaroni with cheese just on the strength of the news. And I guess you know me and macaroni with cheese are great little pals. In fact I might say it was my favorite fruit. Of course I realize the Daisy Canned Soups Co. is paying my expenses, but there's tricks in every trade. My regards to the baby.

JOE

What Tessie and Mrs. Fink don't know about politics! See Tessie's communication tomorrow.

Heart and Home Problems

BY ELIZABETH THOMPSON
Letters May be Addressed to Mrs. Thompson, in Care of the Gazette

Dear Mrs. Thompson: My mother and I cannot agree in regard to fixing up the house. I am a working girl and have many invitations out to the homes of the girls I work with and have been to more than one home more than once. Perhaps if I had never gone anywhere I would have been satisfied at home, but now the stiffness of so many dollies and large portraits on the wall makes me sick. In our parlor there is a large picture of father, a large one of mother, a large one of the three children and a lot of smaller photographs. Can you imagine how I feel?

I have argued with my mother time after time and she absolutely refuses to change a thing. I have finally decided to leave home and will not give in to me at all. It shows that she does not really care for me and would be happier with her "things" than with me around. Don't you think it would be alright for me to leave under the circumstances?

A HATER OF ANTIQUES. I feel that you will be doing wrong if you leave home. Your mother would grieve more than you realize. Her very loyalty to her loved possessions shows how deeply she cherishes what is hers. Make your own bedroom as modern as you wish to, but leave the rest of the home as your mother wants to have it.

Sweetness of character will count a great deal more for you than the modern of living rooms. If your clothes are attractive and your mind keen, you will be admired for yourself and not stamped by the appearance of an old-fashioned parlor.

Sometime, doubtless, you will have a home where you can express the artistic in your nature. Wait for that time.

Velvet Hats for the Youthful

By ELOISE

Youth can wear so many things which do not set well on age, and here are two smart little fall chapeaux which were made especially for the youthful face. The large one is called the airplane bonnet. The gossamer bow of brown velvet on a hat of the same material and shade gives the hat its name. The hat is made with a draped crown and a rolling brim which has a decided roll in the front and back. The bow is the only trimming on the hat and is of such proportions and placed at such an angle that it would be rather difficult for any but a pretty, youthful face to attempt to wear it.

The hat in the lower left hand corner is one type of turban which the young miss may wear. As a rule young girls and women should keep away from the turban, but here is one which simply spells youth. It is rather a combination of the turban and the turban. This one is fashioned of brown velvet with a design embroidered in white wool. The crown is soft enough to be adjusted to suit the wearer and yet it is not shapeless like most of the turbans. Both of these hats are good for general wear. The turban, of course, makes a smart surcoat, while the other model is good for wear with coat or frock and may be used for semi-dress.

WITH THE WOMEN OF TODAY

When the International Congress Against Alcoholism holds its fifteenth convention in Washington this month there will be many prominent women from foreign countries in attendance. The last congress was held in Milan, Italy, before the war, and the women were not as prominent then as they are now, but this time more than five women will speak at the sessions.

One of the most prominent women who will address the congress is Mrs. Dr. S. Dasynska Golinska from Warsaw, Poland. Mrs. Golinska has been called Europe's most famous woman professor and Poland's leading woman patriot, second only to Paderewski himself. Mrs. Golinska is a professor of political economy. She studied at Zurich, Vienna and Berlin.

She has been active recently in the movement in Cracow, formerly Austrian Poland, for popular universities. She is also the author of several books on economic subjects and is known as a brilliant economist. Among her works are several books on social life in the Polish towns in the seventeenth and eighteenth centuries, and a book called "System of Social Economy." She is given credit for greatly aiding the economical development of Poland.

Since a young woman in her twenties she has been an active temperance worker, organizing an inquest on alcoholism in Poland, publishing small pamphlets for propaganda and

NEW DOUBLE DECK SUBWAY IS LATEST PLAN IN NEW YORK

[BY ASSOCIATED PRESS.]

New York.—This city will have a new double-deck subway running most of the length of Manhattan Island if plans proposed by John J. Delaney, transit construction commissioner, to provide for the increase in traffic in the next 25 years are put into effect.

It will be necessary to resort to this double-deck subway construction in the opinion of the Commissioner of Manhattan borough has only 11 north and south arteries to serve

announces legislation stating specifically that women may register for elections without giving exact details concerning their ages. It more than twenty-one, likely will be sought at the next session of the general assembly.

As provided now, precinct officials must determine eligibility of voters, Smith said. If they are satisfied that a woman is over legal age, they may permit her to vote without asking her exact age.

OLDEST SUFFRAGE VOTER
Mrs. Holey of Massachusetts, at the age of 104 years, was driven to the polls recently and was registered as a voter. She is probably the oldest woman in the United States to register as a suffrage voter.

slower, because the congested second more than 400 cross streets.

His plans call for an eight-track, double-deck line on the west side of the city from the Battery to 155th street running under Eighth and Amsterdam avenues. Only four tracks would be constructed at first but these would be so located that another four-track unit could be built under or on top of it.

Mr. Delaney also proposes the building of another north and south subway of four to six tracks under Fifth and Madison avenues on the east side, and extending from the Battery to the Harlem River. Both these arteries would have connections extending to the boroughs of the Bronx, Brooklyn or Richmond.

The Commissioner advocates the construction of 42 new single-track river tunnels. As the present system has 54 such tunnels this would make a total of 96 tunnels.

He says that passenger traffic on the surface of the main arteries, north and south or cross-town, will soon have to be discontinued because of the great increase of traffic of vehicles and pedestrians with the result that all passenger traffic on these streets would be forced into subways or on elevated lines.

NUTRIMENT WASHED AWAY
Much of the nutritive value of raisins is lost by washing them. In the drying process the skin of the raisin is cracked, which results in the sugaring of the pulp. When the raisin is washed the valuable grape sugar is dissolved and thrown away, and yet we would not advise the housewife to refrain from washing the fruit.

EX-KING ENJOYS MONEY BY SPENDING IT; IS POPULAR

Berlin—Former King Ferdinand of Bulgaria, fearing the inroads of the tax-gatherer, is enjoying his wealth by spending it.

At Mergerheim which he is visiting for the sake of the magnesia springs, he leads a jovial and unconcerned existence in striking contrast to the cloistered seclusion of the former German emperor at Ammerongen.

Under the name of Count von Muranny, says a writer in the Zwoelf-Licht, Ferdinand is residing at the Kurhaus together with his suite composed of chamberlain, chamberlain, chauffeur, footman, valet and private secretary. His lavish expenditure has made him popular in the town and surrounding country, where the villagers see in him an emblem of the "good old times" and greet him with cheers as he drives past in an automobile. The fact that the British government has released the former king's sequestered property is known to all and has earned for him the reputation, frequently embarrassing, of being fabulously rich. His chief purchases are books, bronzes, pictures and jewels. His secretary has a difficult task in keeping off the host of people who want private audiences on business. A chimney sweep for instance, has discovered the secret of turning chimney smoke into a high-class boot polish and wants King Ferdinand to advance him 5,000 marks for the exploitation of the invention.

Someone also has invented an ever-burning match and he wants money from the king to convert this theory into practice. The secretary has much trouble to clear that his master has finally retired from business. Other aspirants to munificence avoid the economically-minded secretary and wait for Ferdinand on his motor excursions.

A man whose ambition in life was to shake hands with royalty received one day a card ostensibly from Count von Muranny inviting him to an audience. Overjoyed, he hurried to the Kurhaus in frock coat and tail hat. The victim of an hoax did not obtain the longed for audience, but instead four new 50-mark notes which Ferdinand sent out to him as consultation money.

ing the season's work. The apple picking is practically finished and the local plant has manufactured 110,000 gallons of cider which will be boosted

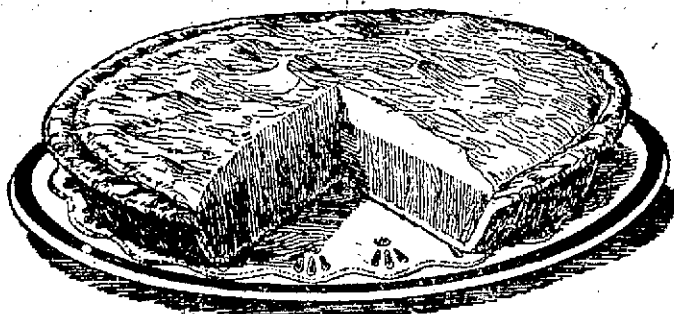

to 120,000 before the close of the season. Besides the tremendous amount of apples that have been made into cider, carload shipments of the fresh

fruit have been made to all parts of the middle west. This has been the biggest apple year the county has ever had.

THREE BROTHERS ARE AMONG 11 HUNGER STRIKERS IN IRELAND

Cork.—Among the 11 hunger strikers in jail here are two brothers, John and Peter Crowley, of Ballylanders, Limerick, while another brother is hunger-striking in Winchester jail, England. Their father, aged 55, has just been arrested also and brought to Cork. Their house was burned recently after a raid was made upon it.

This family rents automobiles which the military official assert were used for Sinn Féin activities. Up till the present one of their automobiles is missing and the father was informed that unless he revealed its whereabouts he would be arrested.

"If I knew I would not tell you," he is reported to have replied. Consequently he was arrested.

Two other prisoners from Ballylanders, Michael O'Reilly and Christopher Upton, were arrested July 16 when shots were exchanged there between the police and volunteers.

Sean Hennessy, one of the hunger strikers who is reported to be suffering severely, was attending an Irish college at Ballymore a month ago when a motor lorry was held up there and burned after its soldier occupants had been disarmed.

Michael Burke of Kilstown, Thurles, who was arrested in connection with a raid there, told Deputy Assistant Commissioner that he was severely from headwinds which he attributed to a beating by an officer with his fists, and a rifle after his arrest.

Another young hunger-striking prisoner, John Power, aged 19, of Castle, Tipperary, was arrested at the village of Kilsheen, as a suspected Irish republican and volunteer, was also Joseph Kenny of Greengagh, County Cork.

Kenny lived many years in Montana. He has seven children, the last being born a few days ago. Another hunger-striker, Joseph Murphy, is a Cork lad who was arrested in connection with the raid on his house at which the police are reported to have found a part of a bomb and an incriminating document.

WOMEN OF FOREIGN BIRTH ARE DEEPLY INTERESTED IN VOTE

(By Associated Press.) New York—Women of foreign birth or extraction are taking their vote more seriously than American women. Mrs. J. Carpenter of the foreign language department of the republican national committee announced at national headquarters here.

Mrs. Carpenter, who was Miss Julia Roger, St. Paul, has been organizing women of 45 languages and dialects in political clubs, and stated that these women showed "keen interest in politics and largely organized themselves."

Frequently a larger proportion of women of a foreign language speaking community registered than did the men, she said, adding that foreign language speaking women appeared to be "mostly republicans because they are interested in the back-to-the-farm movement endorsed by Senator Harding," "because they are opposed to the Wilson league of nations," and "because the republican party stands for the independent nationalization of married women."

WATER POWER IN NATIONAL PARK IS RESERVED BY U. S.

(By Associated Press.) Amherst, Mass., Oct. 14.—The Federal Water Power commission has agreed to refuse to accept any application of power permits in existing national parks until congress has been given a full opportunity to pass upon the entire question of

power development within such parks. J. Horace McFarland of Har-
rington, Pa., president of the Ameri-
can Civic association, announced to-
day in an address at the opening
session of the sixteenth annual con-
vention of that organization.
Mr. McFarland also announced
that Senator Jones, Washington,
had promised Secretary of the Inter-
ior Payne, a member of the water
power commission, to introduce a bill
withdrawing the national parks and
monuments from the provisions of
the recently enacted Federal Water
power act and to urge its early pas-

sage. "The water power people now
have the right," said Mr. McFarland,
"to file claims on every drop of fall-
ing water in any federal reservation,
be it park, monument, forest or even
cemetery."
"The national parks are in im-
minent peril. The danger is two-fold.
It comes from the desire of indi-
viduals, who are organized into many
corporations, to use the resources of
the parks for selfish advantage.
"The irrigationists want to dam
Yellowstone lake in Yellowstone Na-
tional park. They want to use
Heart lake, Lewis lake, Shoshone

lake in the same park. They have
pushed through the senate and have
poised on the brink of passage in
the house, a bill permitting destruc-
tion of Fall River basin. They have
already ruined forever the wonderful
Jackson lake, just outside the park.
"These folks control senators and
representatives, some of whom
threaten to block appropriations, all
road building, all developments in
the parks for your benefit if their
clients are not given first use."

Enlisted men in the United States
army, who were officers during the
war, will wear a cuff braid of forest
green.

Cleveland Six Now Only \$1435

The Cleveland again establishes a new standard of quality and value in the light car field. It offers so much more at such a fair price that other light cars—sixes and fours—can scarcely be thought of as competitive. Cleveland character is distinctive, its daily service is unsurpassed.

No Other Light Car Offers Such Worth

The exclusive Cleveland motor, the most highly developed of the powerful over-head type, gives an abundance of speed, a rare flexibility of power, and a dependability and endurance that surpasses other light cars.

The sturdiness of its chassis construction, the ease of its control, the soft cushion-like action of its under-slung spring construction—all these qualities add

immeasurably to the certainty and comfort of the Cleveland's performance on any road, on the steepest hills, and in crowded traffic.

A Selection of Body Styles That Meet Every Wish

Bodies of dignity and beauty are mounted on the Cleveland chassis, and no other car offers cleaner lines, more truly sturdy gracefulness, or deeper lustre of finish than does the Cleveland Six.
